Hi @Nick for serafina CAD there's an error on the infrastructure that I overlooked while building it on ads manager, as you can see the creative for image dress and blouse are exchanged, I already fixed it on CAD and on ads manager. Right now I'm waiting for the approval if there's changes to be made. thanks

Hi @Rea Tuquib great pick up and thanks for letting me know 😊
There are some minor copy updates which will be finished tomorrow and once you have updated those client is happy for the ads to go live. I will let you know once the copy has been updated in teh infrastructure

Thank you @Rea Tuquib!

I was a Digital Advertising Assistant in a Australian Agency for one year but because of the recession last June 2022 I was laid off and they have no choice even I performed really great to them.
